Can you tell me more about United Publishing Company Inc?United Publishing Company Inc., is a family-run business that has been publishing middle and high school level review books, laboratory manuals, and workbooks/textbooks in the sciences for over 35 years. All of our authors are New York State science teachers, with whom we work very closely. All of our publications meet the requirements of the core curriculum implemented by the New York State Department of Education for the Physical Settings: Physics, Chemistry, Earth Science and the Living Environment. The structure of each review book provides text and ample examples of the types of questions currently asked on regents examinations, such as extended constructed response questions. The work/text materials contain extensive opportunities for reinforcement of comprehension and application of the concepts and connections presented. Numerous questions interspersed within the text and chapter reviews all lead to greater mastery of the material. UPSCO provides its publications to schools, teachers, and districts only. When you give United Publishing Company a call, you'll be connected directly to our friendly staff, so you can expect immediate attention to your inquiry. So, don't wait - call now!
