you're human

This is the official answer key for our website's Multiple Alleles (ABO Blood Types) handout. The Multiple Alleles (ABO Blood Types) handout for students is available for free on our website www.AmoebaSisters.com/handouts and uses our Amoeba Sisters Multiple Alleles clip from YouTube. Please verify that you (1) can access the free YouTube video that this content corresponds to and (2) that you already have the free student handout from our website that this key corresponds to before purchasing this key. Since TpT is the platform where we sell items, we wish to avoid double posting our free handouts on TpT. By purchasing our answer key for less than the price of a typical specialty coffee drink, you are helping fund our passion in creating science videos, GIFs, comics, handouts, and more! This product and all products from our TpT store Amoeba Sisters LLC are designed (and illustrated if applicable) by us, The Amoeba Sisters. Learn more about us in our store profile. Trying to figure out where this TpT resource (and others) fit? See our organizing Google Sheet [HERE](#). We thank you for your support and for watching our videos! We try our best to screen for all typos in our answer keys, but we are amoebas (er, human). If you ever find a typo or problem with our key, please let us know! We want to fix it and then give you a new replacement copy.Terms and Conditions of Use for Amoeba Sisters Answer Keys: This answer key is intended for educator use. Answer keys may not be distributed, reproduced, or sold by any individual or outside entity. No form of this handout or its copyrighted text can be made available publicly online or distributed publicly in print. Public availability of Amoeba Sisters answer keys is a violation of copyright, and it is also a disservice to other educators who wish to use our activities. Modification of this document is prohibited.Answer Key Pricing:We have an unusual style in that all of our videos are free as well as our free student video recap handouts from our website (with the exception of select handouts available only on TPT). We consider many factors in pricing our keys: time spent answering questions, whether we had to add additional images or labels (we draw all of our own pictures), etc. We love specialty coffees, and we figure that if we can set EACH answer key price at- or a bit less than- what you may spend on 1 specialty coffee drink, then this seems reasonable to us as the video and corresponding student handout are already free. Keys can offer convenience as well as be helpful if you are new to the content. Our answer key bundles combine keys, and we set bundle prices lower than if you were to purchase the keys separately. Want our most popular links all in ONE place?Check out our LINKTREE.It's frequently updated. REVIEW SEASON? All of our review resources in one spot! We have 15 "Before the Bell Biology" videos!FREE videos!HERE!FREEhandout onTpT HERE. 5 Important Things to Know About Our Answer Dropbox Folder:1. This view-only (which allows you to download) dropbox foldercontains all free recap handouts from this webpage [still 47 as of August 2024] all in one place.2.The first PDF in the folder reminds about terms of use andaddresses some of the main questions we get regarding our free handouts.3.This dropbox folder containsfree items only. Itwon'tcontain items that we sell on TpT - visithereto see all our TpT items.4.The free recap handouts have official answer keys that we offer on TpT to support our work. We offer them individually or inone mega key bundle.5. You can still scroll down on this page to see each alphabetized topic where we have more items for each topic on this page. If you've never used our resources before, we highly recommend scrolling down on this page by topic first as the folder will be overwhelming otherwise. Our handouts are designed for classroom use, and you can find ourterms of use here!Please note:terms of useprohibitpublicly posting answer keys made from our handout contents this is amodification of our published content (and a disservice to other teachers and students using them). We do offer official Amoeba Sisters answer keys (linked on this website to Teachers Pay Teachers- TPT) which also have these same terms. We allow our images and GIFs to be shared on presentations and social media provided they are not edited and that they are not used for financial gain (i.e. our images or GIFs can't be in/on an item that you sell). Learn more about our terms of use here. Resources on this page are listed by topic in alphabetical order under the purple terms of use box--scroll down just a little bit more. What is TpT?Teachers Pay Teachers (TpT) allows teacher creators to be able to financially support themselves for their work which allows us to continue our creating! TpT contains all kinds of amazing resources (in all content areas PK-12) created by many who are, or have been, in the classroom. While we plan to always have free resources available (and, of course, our videos are always free) as this is part of our mission, we greatly appreciate the support from those that purchase items that we offer exclusively on TpT. So I need a TpT account to purchase items on TpT?Yes, you need an account so you can access the resource at any time. It is free to make an account on TpT.Here is their general sign-up page for a personal account:www.teacherspayteachers.com/SignupCan my school make a TpT account? Or use purchase orders?Check out the new TpT for Schools. This allows schools to purchase items that they need through one place for their teachers, and it works well with school purchase orders. Even if your school doesn't have a TpT for Schools account, it is possible to purchase something on TPT with a school purchase order. Can I just get one mega bundle of everything you have on TpT?We've been asked this more frequently now, and we've found a way to do this.Option 1) We do have a mega TpT bundle for all resources up to a certain date.Option 2) Contact us and tell us all the items that you would like in a custom bundle. No, not all of our videos have an accompanying resource. You can see a listing of our videos with applicable resources here. You can subscribe to our YouTube channel to be notified when we release new videos. Our videos and resources are designed to specifically focus on and support biology TEKS (Texas standards), but there is often standard overlap in many locations. Visit our playlist page for a work-in-progress listing of applicable TEKS and NGSS standards that our videos and resources can help support. However, we want to emphasize that our videos and resourcescannot be all inclusive of any standard, because we believe a strong lab foundation, student questioning, and discussion in the course is critical to fully addressing science standards. It is our goal that our videos and resources are supplemental to help support the standards that students are mastering. Check out our page on this hereon some option for digitally writing on them.However, if you're looking for virtual resources that work well digitally, we highly encourage our Amoeba Sisters Virtual Checks on PocketLab! They are specifically designed to work virtually. When these handouts are used in-class (and that can be virtually or in-person) as quick formative checks, you are (1) able to ensure that the responses you receive are from the student that handed it to you, (2) you can assist students for that just-in-time assistance they need, and (3) you can adjust teaching due to reading responses. They can also be built into class discussion. We think it's VERY important to bring this up despite not receiving this question yet. We want to make sure to model to students that we all make mistakes, and that it is not only important to fix them--but to grow from them too. We strive to be lifelong learners and to share our learning like this (on Twitter) or this (on Twitter)! We have run into the occasional typo or grammatical error. Sometimes we will get helpful feedback for a video that we should add a clarification or that something was mispronounced. Textbooks have methods to handle errata, and as educators, we have also looked for ways to handle this. Here is some information about how we handle different types of these issues in our videos. Regarding our handouts/resources--if it is a free resource, we can make edits on this page. If it's on TpT, we can update it directly on there. If it is more than a minor typo on TpT, we can send a note to all of the TpT purchasers letting them know why we made an edit. We have created so many comics and GIFs now on so many of our video topics, and we think they are so powerful in the classroom. Take our comic here about an enzyme (one of our many enzyme comics). Just think about the power of projecting this on a screen and the questions that could be asked about how this relates to the topic being studied. Or, better yet, asking students to come up with the questions. Questions like: How is this comic relating to our content? What kind of environmental conditions could actually denature an enzyme? If this was reality, would all enzyme "customers" have the same request? These are just some examples, and these opportunities are naturally built into our Unlectured Series! We share our individual comics and GIFs to start up discussions like these, and please feel free to use them--provided you follow our terms of use. As creators, we hope to continue to keep getting better, which means we do redo videos as our art and audio improves. Still, we try to avoid deleting old videos or resources, because we want students to see this journey. We think it's important for students to know everyone starts as a beginner! If we redo a video, we usually will place the newer version video link on this page and then still keep a link to the old video too. Old handouts can still be used with new videos as we make sure our new videos still include the previous information. Occasionally, we'll update old video handout graphics, but we have found that seems to cause confusion so we avoid less likely to alter old handouts. Our videos are FREE!Subscribing to our channel is also free and would make us the HAPPIEST of amoebas!Please subscribe to our YouTube channel? Reminder:Terms of useprohibit publicly posting answer keys made from our handouts. This is an editing on our copyrighted work (and a disservice to teachers and students using them). Scrolling alphabetically but not sure if you're looking for the same topic name we are using? Curious about standards our videos can help support?Check out ourplaylist pagefor assistance! Free Video NEW video release, check back soon! Free Video Video Resources Check back soon! How to Read a Codon Chart Video Companion- Amoeba Sisters PDFFile Size: 554 kbFile Type: pdfDownload File Note: This is a video companion handout instead of a recap handout. Unlike our regular recap handouts, video companion handouts are designed to be used while students watch the video. Amoeba Sisters Terms of Use Reminder:Terms of useprohibit publicly posting answer keys made from our handouts. This is an editing on our copyrighted work (and a disservice to teachers and students using them). Scrolling alphabetically but not sure if you're looking for the same topic name we are using? Check out our incomplete dominance/codominance illustration.Note: We have not created a free handout on this topic, but we offer a resource for purchase on TpT. Select topic recap and key: select recap handouts are styled just like our regular free recap handouts, but they tend to cover more detailed/less standard topics. For example, water properties, the endosymbiotic theory, and non-Mendelian inheritance are topics that have select handouts (with accompanying keys).This supports our work! Free Video On TpT Select handout and key:select recap handouts are styled just like our regular free recap handouts, but they tend to cover more detailed/less standard topics. For example, water properties, the endosymbiotic theory, and non-Mendelian inheritance are topics that have select handouts (with accompanying keys).This supports our work! NOTE: We don't always update old handouts when we update a video, but we decided to update this handout! It is very similar but with updated drawings and a few extra questions. Updated handout is below. Old handout remains available underneath the new one. UPDATED Mutations Recap by Amoeba Sisters- Amoeba Sisters PDFFile Size: 469 kbFile Type: pdfDownload File prefer OLD handout? Click to expand. OLD Mutations Recap - Amoeba Sisters PDFFile Size: 602 kbFile Type: pdfDownload File Check out our mutation graphics and GIFs! On TpT!Answer Key to Mutations recap.Note: We have updated this to include both keys--one to the original (old) student recap and one to the new (updated) student recap.On PocketLab: Amoeba Sisters Virtual Check: Video topic is one of many included w/ an Amoeba Sisters Virtual Check subscription on PocketLab! P.S. The above video is an intro to science video. Science helps develop scientific theories and laws. But we know many students have the misconception that "scientific theories turn into laws with enough evidence" or that a scientific theory is "just a theory." We have a separate video that can help with these misconceptions- scroll down under the topic "theories." Nature of Science Recap- Amoeba Sisters PDFFile Size: 384 kbFile Type: pdfDownload File Check out our Nature of Science related illustrations, including this infocomic mentioning experimental design vocab. Answer Key to Nature of Science recap.This helps support our creating! On Our Redbubble Store: We license some of our art in our Redbubble store. By request, we made a poster version on Redbubble of our casual vs. scientific use of the word "theory" comic. On PocketLab: Amoeba Sisters Terms of Use Reminder:Terms of useprohibit publicly posting answer keys made from our handouts. This is an editing on our copyrighted work (and a disservice to teachers and students using them). Scrolling alphabetically but not sure if you're looking for the same topic name we are using? Curious about standards our videos can help support?Check out ourplaylist pagefor assistance! Check out our PCR GIF (you'll find it about mid-way on our GIF page) next to the gel electrophoresis GIF! On TpT Select topic recap and key: select recap handouts are styled just like our regular free recap handouts, but they tend to cover more detailed/less standard topics. For example, water properties, the endosymbiotic theory, and non-Mendelian inheritance are topics that have select handouts (with accompanying keys).This supports our work! Note: These concepts are already covered in our "Cells" video and resources--but this shorter video isolates prokaryotic vs. eukaryotic cells. Standards this can support? Visit here.Texas teachers, we list TEKS that can be supported here. Prokaryotic vs. Eukaryotic Cells Recap- Amoeba Sisters PDFFile Size: 370 kbFile Type: pdfDownload File We have many cell comics, but this is one of our favorites on this topic. Also, check out our prokaryotic vs eukaryotic cell GIF! I'm looking for your old video called "Prokaryotes and Eukaryotes" and old handout? Click here to access our old "Prokaryotes and Eukaryotes" video! It will remain up. Below is our old handout as well. Note: As mentioned in product description, the offered key on TpT goes to the new handout. There is not an active key to this old handout. OLD Prokaryote/ Eukaryote Recap - Amoeba Sisters PDFFile Size: 437 kbFile Type: pdfDownload File Answer Key to Prokaryote vs. Eukaryotic Cells. This supports our creating! On PocketLab: Amoeba Sisters Virtual Check: Video topic is one of many included w/ an Amoeba Sisters Virtual Check subscription on PocketLab! Select topic recap and key: select recap handouts are styled just like our regular free recap handouts, but they tend to cover more detailed/less standard topics. For example, water properties, the endosymbiotic theory, and non-Mendelian inheritance are topics that have select handouts (with accompanying keys). Topic is part of our Unlectured Series! On PocketLab: Amoeba Sisters Virtual Check: Video topic is one of many included w/ an Amoeba Sisters Virtual Check subscription on PocketLab! Check out our protein structure GIF! For this video, we offer ourannotated video script TEMPLATE.Our template provides space for students to annotate, sketch their learning, identify vocab, and ask their own questions.On PocketLab: Amoeba Sisters Virtual Check: Video topic is one of many included w/ an Amoeba Sisters Virtual Check subscription on PocketLab! Standards this can support? Visit here.Texas teachers, we list TEKS that can be supported here. P.S. Did you know we made a short video on how to read a codon chart? To find it, look under the topic on this page "Codon Charts." :) NOTE: We don't always update old handouts when we update a video, but we decided to update this handout! It is very similar but with updated drawings and a few extra questions. Updated handout is below, and just like the old handout, it focuses on two videos. The front (1st page) focuses on the DNA vs. RNA video and the back (2nd page) focuses on the protein synthesis video.
