When your students still want a book but do not want to keep it, the McGraw-Hill textbook rental program offers to Students our latest issues at our most affordable hardcover prices. Bost information about our textbook rental program. You want more information? Our Learning Technology Representatives can help. Description Cowan Microbiology Fundamentals: A Clinical Approach The 3th Edition of Cowan is the perfect fit to align with its course. Here is why: The contributions of a nurse in exercise help students see how the content fits into their lives and is related to their future career. A shorter text means that all basic concepts are covered, but simplified to better adapt to the duration of your course. A more modern, visual and digital learning package adapts today's students in day and how they learn. Additional Information Download E-Book Introduction Cowan's Microbiology Fundamentals: A perfect option for its microbiology course. The authors' team includes a registered nurse in exercise that shows students how the contents of each page is related to their lives and their professional future. McGraw Hill Connect<sup>®</sup> is aligned with the text and provides a task management and highly reliable and easy learning solution that integrates the science of learning and adaptive tools awarded to improve the results of students. C++ All-in-one for mannequins Pharmacology for Anesthesia and Intensive Care Microbiology Fundamentals: A Clinical Approach (Looseleaf) Textbooks E Buy Textbooks Summary Author bio Table Table content Digital Rights Kelly Cowan began teaching microbiology at the University of Miami in 1993. Her specialty is teaching microbiology to pre-nurses and related health students at the Middletown University Campus. After working as a dental hygienist, he earned his doctorate at the University of Louisville and later worked at the Marine Biotechnology Center at the University of Maryland and at the University of Groningen in the Netherlands. Kelly has published (with her students) 24 research papers stemming from her work on bacterial adhesion mechanisms and plant-derived antimicrobial compounds. But your first love is to teach how to do it and to study how to do it better. She has been president of the Graduate Education Committee of the American Society of Microbiology (ASM). Her current research focuses on the school performance gap associated with economic disparities, as well as literacy in the science classroom. In her spare time, Kelly walks, reads and still tries to be a mother to her three adult children. Jennifer Bunn, RN, is a registered nurse, having spent most of her career in rural medicine, where she has had the opportunity to interact with patients of all ages. Her experience includes emergency medicine and critical care, pediatrics, acute care, long-term care, and labor and childbirth. Jennifer currently works in an acute care unit. Throughout her career, she has enjoyed tutoring and preceptance from LPN and RN students. Jennifer writes medical content for websites, apps and blogs. blogs.
